SUMMARY

Software Engineer with hands-on experience in full-stack development and cloud infrastructure. Experience building and deploying scalable applications using Python, C#, and AWS. Enjoys writing maintainable code and automating deployment processes.

WORK EXPERIENCES

Software Engineer
Bin Tech Inc - Canada

January 2025 – Present

- Developed a scalable data platform to aggregate and analyze real-time trading data from multiple financial markets.
- Developed high-performance APIs using FastAPI and interactive dashboards with React.js.
- Orchestrated robust data pipelines using Dagster and MinIO to process large-scale datasets with high reliability.
- Implemented centralized Identity and Access Management (IAM) using Keycloak to secure system resources.
- Automated deployment workflows by establishing CI/CD pipelines and managing containerized applications using Docker, NGINX, and AWS.
- **Tech:** Python, FastAPI, Dagster, MinIO, Keycloak, Docker, NGINX, AWS, React.js, Github Actions

Software Engineer Intern
FPT Software - Vietnam

September 2024 – March 2025

- Found and fixed bugs in backend services to improve system stability.
- Monitored AWS cloud services to find and solve issues.
- Helped design and connect backend systems with AWS cloud tools.
- **Tech:** FastAPI, React.js, AWS (EC2, S3, ECS), MySQL, Elasticsearch

PROJECTS

Metro Ticketing System
Team Leader & Fullstack Developer (Team size: 6)

January 2025 – Present

- Led a team of 6 to build a ticketing system using a microservices architecture for payments, users, and tickets.
- Developed the admin web dashboard and helped build the mobile app for users to buy and store tickets.
- Set the standards for how the team wrote code and documented APIs so everyone could work together easily.
- Set up automated tools (CI/CD) to test and deploy code automatically, making the process faster and more convenient.
- **Tech:** C#, .NET Core, Flutter, SQL Server, MongoDB, Microservices, Kafka, Docker, GitHub Actions

EDUCATION

2022 - Present Software Engineer at FPT University

- GPA: 3.44/4
- 50% University Scholarship (2022 - Present)
- Top 100 Software Engineering Students of the Semester (2024)

SKILLS

Languages	C#, Python, JavaScript/TypeScript, SQL
Libraries/Frameworks	.NET Core, FastAPI, React.js
Databases	PostgreSQL, MySQL, SQL Server, MongoDB
Deployment	Docker, GitHub Actions, AWS, Azure, Linux
Else	Git, HTML/CSS, OOP, DSA, CI/CD, Agile/Scrum, Cloud Computing, RAG Workflow, Networks
English	B2 - proficient in reading, writing, and speaking
